

Loyalty Management Solution Based on Dynamics CRM

FocusLive Loyalty Management enables organizations to create loyalty campaigns without the help of IT staff. It delivers a full range of analytics, marketing, and service capabilities that help you better understand each customer's lifetime value and design service levels and promotions that maximize the potential of all your customer relationships.

FocusLive Loyalty Management For Dynamics CRM transforms the effectiveness of customer loyalty initiatives so that you can minimize attrition and increase the value and duration of your most important customer relationships. FocusLive offers a comprehensive and fully integrated application for managing the complete loyalty program lifecycle. With FocusLive Loyalty Management For Dynamics CRM, you can acquire and leverage rich customer insights and embedded best practices to deliver innovative and differentiated programs that drive behavior and offer great customer experiences across channels and adapt quickly and to improve competitive advantage.

Improve the Effectiveness of Loyalty Programs

Despite the popularity of loyalty and incentive programs, many organizations have failed to increase the loyalty and value of their most important customers because they are unable to identify their most profitable customers and effectively drive desired behavior. Constraints imposed by fragmented data, silo point solutions, heavy reliance on IT, and inflexible and costly legacy systems make it difficult to gain an accurate view of key customers and their behaviors, bring differentiated incentives and rewards to market quickly, and ensure a superior multi-channel member experience. FocusLive solves these challenges with FocusLive Loyalty Management For Dynamics CRM.

Benefits:

Flexible multi-channel solution:

- Complete, integrated multi-channel solution
- Highly flexible, rules framework designed for business users
- Robust and scalable loyalty engine supporting real time and batch processing across channels
- Multi-channel member care and management
- Reduce operating costs by automating loyalty management business processes

Manage customer clubs, membership service and monitor sales activity:

- Packaged loyalty member call center solution
- Pre-built loyalty process business flows
- Flexible redemption payment methods and currencies
- Dynamic redemption pricing
- Flexible accrual rewards
- Pre-built, configurable member portal
- Integrated with core CRM processes including marketing, service, sales and analytics
- Increase competitive advantage and results through innovative and differentiated offerings
- Robust promotions management
- More effectively influence and reward desired customer behavior

FocusLive® Loyalty Management Solution for Dynamics CRM

Giving you complete customer visibility:

- Improve customer insight and loyalty program performance measurement
- Improve program flexibility and responsiveness
- Reduce costs by providing members self-service loyalty portals
- Adapt quickly and cost effectively to improve competitive advantage
- Comprehensive member view
- Flexible tier assessment models and membership schemes
- Incent more customers to identify and share information about themselves
- Improve and personalize customer experience across channels

Self-service portal for your members and prospects:

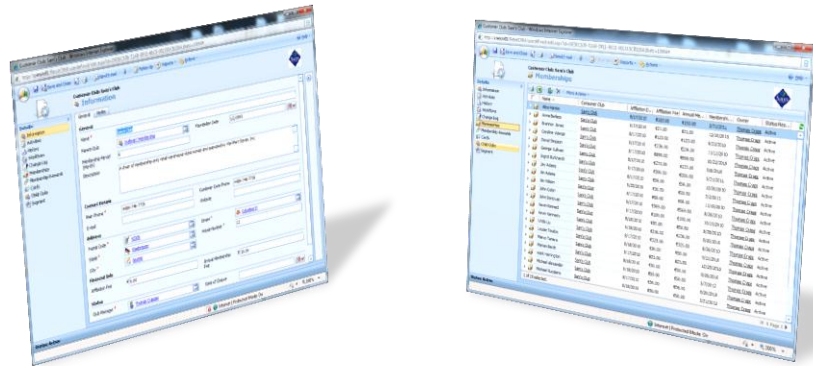

Your prospects and customers can rapidly and easily submit affiliation forms, track reward points history, view updated coupons and vouchers, get updated on new promotions and open service requests through a secured self-service portal.

Integration with Dynamics AX For Retail and other ERP applications for retail

The solution offers an integration with Microsoft Dynamics AX For Retail and also with other leading ERP Applications for retailers using standard connectivity tools provided by Dynamics CRM platform.

Comprehensive Multi-Channel Solution

FocusLive Loyalty Management For Dynamics CRM is a comprehensive, customer-centric and multi-channel loyalty solution that supports the entire loyalty program lifecycle. FocusLive Loyalty Management For Dynamics CRM includes deep industry and loyalty best practices for member enrollment and management, tier management, accrual and redemption, personalized loyalty promotions and member communications, multi-channel customer care and analytics. It is delivered on an open, standard-based and scalable platform that provides flexibility and agility far beyond traditional systems. Business users rather than IT can directly define innovative offers to dramatically reduce time to market.

Enhanced Customer and Program Insight

At the heart of FocusLive Loyalty Management For Dynamics CRM is a 360-degree view of each customer's profile, attitudinal insights, and behavioral information. It provides business users access to extensive information on each member including tier status and value, transaction history, loyalty assets, eligible and enrolled promotions, service requests, sales orders and activities, preferences and response history. Using the solution's dashboard and built-in reports business users can leverage this information to improve customer insight, personalize the customer experience, and improve decision making.

Complete Loyalty Program Management

FocusLive Loyalty Management For Dynamics CRM helps you streamline and optimize critical loyalty business processes and deliver differentiated and innovative programs that drive behavior and build value.

The solution modules provide an intuitive, process-driven user interface, enabling business users to create and deploy complex and targeted loyalty promotions in minutes rather than days and setup new partners in hours rather than weeks. FocusLive Loyalty Management For Dynamics CRM also provides business users with flexible tier management and assessment to differentiate and recognize members based on multiple dimensions including value. FocusLive Loyalty Management For Dynamics CRM enables business users to complete a wide range of activities:

FocusLive is a dedicated sub of "Proware" group listed in Paris and is a software solution factory dedicated to building on-premise solutions, Software as a Service (SaaS) for Industry-specific (Vertical) solutions and Add-ons built on the Microsoft Dynamics CRM platform.

FocusLive® Loyalty Management Solution for Dynamics CRM

Manage membership activity by using built-in dashboards and dashboard wizard

The integrated dashboard wizard gives executives and managers the ability to create and view dashboards and reports on-the-fly.

Built on Dynamics CRM Platform Available on V4.0 and 2011

One of the key benefits of implementing the FocusLive Loyalty Management solution based on Dynamics CRM is the automation and integration of all service, sales and marketing business processes from acquiring new members until active purchases that are affiliated to the club activity are made in stores. This gives you a full 360° view of your business metrics, in real time.

Strong security model

The FocusLive Loyalty Management solution is built on a strong security model that gives your employees access only to the clubs that they are assigned to, rules and policies can be set for changing club membership fees, vouchers and reward points policy.

- Set-up one or more loyalty programs
- Manage multiple targeted membership schemes with variable durations and price.
- Manage multiple tier classes and models and easily control all the aspects of tier management from the number of tiers and tier rewards to point expiration rules
- Set-up products and services offered for accrual and redemptions including product catalogs
- Create and deploy targeted loyalty promotions
- Setup and manage simple to complex accrual rules and promotions
- Implement service recovery compensation and other membership administration tasks for individual as well as group of selected members
- Run statements and manage member communications.

Comprehensive Cross-Channel Member Care

FocusLive Loyalty Management For Dynamics CRM enables organizations to deliver a superior customer experience across channels while reducing time and cost to serve. It offers a variety of solutions that allow organizations to deliver world-class customer care and consistently recognize, support and reward customers based on value in real-time and at every touch point including over the phone, at a customer service desk, via the web, at the point of sale or from any 3rd party application using web services.

To help ensure consistent and high-quality care, FocusLive Loyalty Management For Dynamics CRM offers a set of pre-configured member processes that are commonly required by loyalty programs across industries such as: membership enrollment, renewal, cancellation; points related services such as purchase, transfer, gift and re-activation; redemption services including fulfillment, cancellation and certificate re-issue; retroactive claim processing and dispute resolution processing. Customers can be guided through the completion of the process using a pre-configured workflow that enhances productivity and ensures a consistent customer experience. In addition, provides a comprehensive set of web service-enabled processes to allow easier and faster integration with 3rd party applications.

Summary

Identifying and retaining your best customers has never been more important. FocusLive Loyalty Management For Dynamics CRM is a comprehensive solution that allows you to retain and grow your most important customer relationships, acquire rich customer insights, and improve the overall customer experience through dynamic, differentiated and cost-effective loyalty initiatives.
