

Prodware picks up two awards at this year's Sage Partner Sessions

As a leading IT company, the trust of its customers and their satisfaction are central to Prodware's strategic development. A strategy that has paid off twofold today.

First, Prodware was awarded ScoreFact certification for its Sage FRP 1000cloud solution, confirming the central role that customer satisfaction has in the Group's development strategy. ScoreFact is an independent body that developed the SF-SRS® standard and qualitatively assesses IT solution service providers.

The results of the audit that ScoreFact conducted of around fifty active Prodware customers focusing on Sage FRP 1000cloud highlight the long-established qualities that the Prodware group has: technical expertise, the ability to achieve targeted results and a focus on customer satisfaction.

Then, Prodware was presented with an award – by Sage – for the best growth of 2018 as part of the last stage of the Sage Partner Sessions. Prodware posted a 36% increase in Sage FRP 1000cloud sales compared with 2017.

*“It goes without saying that we are very honoured to have received this double award. We are particularly pleased to have been awarded ScoreFact certification since Prodware is the first Sage company to receive it for Sage FRP1000cloud. As far as the award we have been given by Sage is concerned, it recognises the fantastic work that our teams have accomplished”, says **Thierry Delhommais - Sage Director at Prodware.***

*“We are proud to be working hand-in-hand with Prodware which provides our Sage Business Cloud solutions with genuine added value. We would like to congratulate this key partner which has won a number of noteworthy calls for tenders on Sage FRP 1000cloud. It has demonstrated, via its business expertise, its ability to support companies in their digital transformations”, says **Guillaume Hoffmann – Director of Indirect Sales.***
